

#### **4. Our events**

##### Responsibility

We do everything we can to help our participants but all participants are responsible for themselves during the events.

##### 4.1 Photography

If you register for one of our events, you are accepting that we can use your name and photos and videos of you taking part to promote this year's event or future events that we hold.

##### The unexpected

We try and make all our events go as planned, but sometimes things happen so we need to change them. We will try to make sure you are informed of any changes.

##### Extra participants

If you sign other people up to our events, you must have prior consent, as they may receive communications about the event you have signed them up for.
