How to call into a Zoom meeting on your mobile or landline

One of the easiest ways to join a Zoom meeting is to call in on your mobile phone or landline. However, do bear in mind that you won't be able to see the other participants or the workshop leader.

Ahead of your meeting, the Ovacome team will send you details which will look like this:

Ovacome Office is inviting you to a scheduled Zoom meeting.

Topic: My Meeting
Time: Apr 3, 2020 08:00 London

Please note that the above is an example. The details for your meeting will be sent to you in an email a few days before the meeting.

Five minutes or so before your meeting is due to start, on your telephone, dial the first number under 'Dial by your location' (so in the example above, the number would be 0208 080 6591).

Please note that when you call into the meeting, those who are joining the meeting on their computer, smartphone or tablet will be able to see your phone number. To avoid this, simply dial '141' before dialling the Zoom number (so in this example you would dial 1410208 080 6591). You will then be anonymous.

Once you have dialled the number, you will be asked to enter your Meeting ID, followed by # (in this example it would be 221 704 167 #)

You will then be asked to enter your Personal Meeting ID, followed by #. Please ignore this and just enter #.

You may be asked for a meeting password, which is included in the email Ovacome sent you.

You will then be entered into the meeting. If the meeting hasn't started yet, you may be placed in a 'waiting room'. You do not have to do anything, the host will let you in once the meeting has started.

If you have any problems, call us on the number provided in your joining email.
